~ ASK US ABOUT GIFT CERTIFICATES ~

LOCATED AT STONES MARINA, NANAIMO
(a block south of the Departure Bay ferry)

~ WE DON'T DO FISH ~

The Wind Walker is much too pretty to have dead fish laying around. There are lots of fishing charters available if you'd like to put a rod in the water, and we'll happily refer you, but if you want an unforgettable sightseeing cruise, give us a call!

~ AND WE DON'T DO BOOZE ~

Boozin' and cruisin' just don't mix, so if you want to drink, please call another charter company. We have a full selection of soda pop, fruit juices, bottled water, coffee & herbal teas available.

~ THE BOAT ~

The MV Wind Walker is a classic wooden boat - a 38' 1965 Chris Craft Constellation. She has a 13' beam, making the interior roomy enough for a full galley, large library and two 'heads.' Crafted from the finest Honduran mahogany and trimmed with wood throughout, she's a beauty that's been kept in great condition since her beginnings nearly 40 years ago. Complete with generator, a state-of-the-art inverter and twin engines, the Wind Walker is completely self-contained, safe and solid.

~ THE FOLKS ~

Co-captains Michael and Marilyn have 20+ years boating experience on the Pacific Ocean, and both grew up around boats and boating. They've lived afloat for several years, and their love and respect for the lifestyle shines through everything they do. You'll be treated to a relaxing, yet informative journey filled with nautical knowledge, folklore, history and humor.

~ THE TRIPS ~

The Nanaimo area alone is spectacularly beautiful from the water, AND it is a stone's throw from the world-famous Gulf Islands, and several marine parks and lighthouses. Classic west coast sightseeing all within cruising distance!
